

Dear Cascade Christian Parents:

We do our best to secure the drive schedules at the beginning of each course, but it is inevitable that conflicts come up and changes sometimes need to be made. Since drives have been set up in teams of two, when someone makes a change, it leaves a student alone in the car with their instructor. For some of you that may be fine, but others may prefer to reschedule your students drive at a later time when they are paired up with another student.

When this situation has come up, we have tried to notify you in advance, but if someone is ill or doesn't show up for a drive, we need to know how you want to handle the situation with your own child.

Please check your preference below:

\_\_\_\_\_ I give permission for my student to drive solo with the SWERVE instructor.

\_\_\_\_\_ I do not want my student driving solo with the SWERVE instructor and would like to reschedule these drives at no charge.
