Curricular Distinctives

The educational philosophy of Cascade Christian Schools is based on a God-centered view of the truth as presented in the Bible. The integrating center for the educational experiences of a student is found in the person of Jesus Christ and His written Word – the Bible. Recognizing the pressures upon a young person today, Cascade Christian Schools offer an environment that promotes and teaches spiritual principles of living and encourages normal human relations within the context of biblical imperatives. Cascade Christian's curriculum arises from a philosophy that places God, not man, in the center of all things. Emanating from this philosophy is the challenge to students to use every talent vigorously, "as unto the Lord" (Romans 12:1-2). Students should be prepared to meet life's intellectual and philosophical changes with well-reasoned faith.
