Student Emergency Kit

Kit due Friday, September 24, 2021

Being prepared for emergencies is one of Cascade Christian Schools' top priorities. We have determined that having families provide an emergency kit with items specifically chosen for their K–6 students is better than purchasing kits that quickly become outdated and that students may not want to consume.

Kit Contents:

- 6 high protein bars (e.g., Nature Valley XL Protein Bars)
- 6 pouches of plain or flavored water, particularly those high in electrolytes (pouches, such as Capri Sun, fit in the bag better than boxes do)
- 6 towelettes, such as those found at fast-food restaurants
- A family photo
- A slide-zipped gallon-sized bag to hold it all with student's name on it (slide-zipped bags—as shown in the photo below—tend to be easier to use than press-n-seal bags)
- Place in plastic grocery bag w/ handles.

Important: Only those items listed in the contents section above should be in the emergency kit. At the end of the school year, the kit will be sent home.
